MMBAIC PRINCIPLE BASED ON

"MMBAIC is based on the principle of 'Social Entrepreneurship,' where businesses are conducted for the financial development and upliftment of society, involving people who are connected to MMBAIC." The purpose of forming Business Members Syndicate – India (BMS-INDIA) is to develop the basic infrastructure and build the foundation of the organization, while working toward the financial development and upliftment of society by involving individuals connected to MMBAIC.

NATURE OF ORGANISATION

MMBAIC is 'The Factory' of Creating Businessmen. We are in the business of providing business training to business aspirants who want to get into business.

Basically it's a unique 'Business School' and a 'Renowned Business Training Institute'.

INTRODUCTION OF ORGANISATION

We, Millionaires Magicaal Business Accurate Idea Club OR The 'Millionaires' MBA Idea Club' are also known by its popular name 'MMBAIC Club' i.e. M'Bac. We are willing to create entrepreneurs in society. It is a Collective Entrepreneurship Movement'. We never claim that we are any business guru, mentor, or coach, but we do claim to be a 'System' that helps you set up and grow your business professionally. It is a 'Business Consultancy' based 'Business Training Institute'. It is working in the form of a 'Business Club' to widen 'The Scope of Opportunities' by merging all the concepts altogether to create real impact and transform the life of the people who are with us in this mission. We provide advice, guidance, training, consultation, motivation and inspiration to the youth to get them into business. We provide 'On Field' practical business training and hand holding support throughout the business journey to help them start their own business or own the existing ones by joining hands with them. We are striving to provide a strong platform and a support system to every deserving business fellow and generate flourishing business opportunities for them to gain a financial freedom by starting, establishing, or owning multiple businesses to create multiple sources of income.

We are providing opportunity for everyone to get into business. The biggest benefit of being connected with us is that, we provide you opportunities to start own businesses or own existing ones to all the people who are associated with us in various ways and forms like Regular Annual Members, Affiliated Business coordinators Executive Directors, etc. There is a myth that 'To become a successful businessman you must be a highly educated person'. But we think that it is not that true because, if you look around, you will notice that many less educated or even college dropouts are successful businessmen and entrepreneurs.

We think that to become a successful businessman your educational degree doesn't matter at all, hence to operate the business successfully, you don't need to be a highly educated person. Of course, education does play an important role in your success, but practical experience and practice do matter a lot than the piece of paper called as a 'Degrees'.

It is said that you don't need to be an expert in every field; if you are not, hire them. So to operate the business successfully, you don't need to be a CA, CS, Advocate, MBA, or any other business management professional; you can just hire them and run your business successfully with your skills to become a successful businessman. We think that what all matters or what all you need to have to run the business successfully is your self-confidence and your businessman skills and qualities. Mainly 02 basic skills and qualities you must have a 'Risk-Taking Attitude' and 'Best Selling Skills'. It is said that 'All successful businessmen in the world are the best salesman', which means 'Aap Ko Kuchh Bhi Bechna Aana Chahiye'.

You must be a part of the Business Club because it's not just about learning business concepts and attending courses; it's also about seizing opportunities to connect with new businesses, exploring options to start your own venture or take over an existing one, and becoming part of a motivated, inspiring business community filled with innovative ideas. The club serves as a strong support system to help you grow professionally in your business and professional life. This platform is not just a course or training program, but a system that works on an entire process of creating a businessman from scratch. It's not just a course or training program but the process of becoming a businessman. We proudly say that 'Success is a process and not a miracle'. We also quote in Hindi that 'Miracle nahi Mehnat hai, Maggi nahi Ghee Hai', because maggi takes two minutes to get cooked but extracting ghee from milk is a long process.

ONE WAY TO ACHIEVE MULTIPLE PURPOSES

Whether you want to learn business OR you want to grow your current business OR you want to start your own business OR you want to own the existing business by getting associated with, once you get yourself registered as a RAM with Business Members Syndicate – India (BMS-INDIA) and follow the journey till you become ABC by enjoying all the numerous services, courses, benefits, features, advantages, training programs, counselling sessions, business establishment guidance program, business consulting sessions...etc. You automatically achieve all the purposes you are here for.

WHAT WE DO

MMBAIC FUNCTIONING MODULE

(MMBAIC Operates Within 03 Distinct Verticals.)

VERTICAL 01

This section is dedicated to 'SIR RATAN TATA'. It's our Official Beginning from Vertical-01 as a Social Initiative. Vertical 01 is inspired by A GREAT PHILANTHROPIST Hon'ble Sir RATAN TATA. Under this section we are explaining youth, why it is important to get into business. We are motivating youth to get into business.

Vertical 01 under its 'Selfless Social Initiative' is coming with a great 'Collective Entrepreneurship Movement'. 90% of the corporate people are frustrated with their corporate slavery and want financial freedom; hence they want to become their own boss by starting their businesses. But many of them cannot start due to lack of a genuine platform or a strong support system. Nowadays, everyone is looking for opportunities to start their own businesses, but they are facing many difficulties. Hence, MMBAIC is establishing 'Business Members Syndicate-India' (BMS-INDIA) at pan India level and giving golden opportunity to youth to get registered as a Regular Annual Member (RAM) of the business club. BMS-India develops a Community of Ambitious Businessmen'. We are establishing BMS-India (Business Members Syndicate India) by appealing, shortlisting, selecting, and registering RAMs (Regular Annual Members) into BMS India. MMBAIC through BMS-INDIA, creates a robust infrastructure, genuine platform & strong support system to help them solve all their problems and difficulties in starting their own businesses and to help them make it easy for them to start their own businesses by providing proper courses, training programs, counselling & consulting sessions, guidance, inspiration and motivation from the team of professionals assigned to BMS-India.

MMBAIC states that only limited candidates of these 84 crore young people who wish to start their business, between the ages of 18 years to 40 years, from the whole of India will be given a chance to be part of this happening project through BMS INDIA.

MMBAIC believes that vertical 01 will surely help us gain name and reputation, create goodwill, generate market value, build a brand image, increase market credibility, establish a firm foundation of the organization in the way of 'Business Members Syndicate-India' (BMS-INDIA) and also reach deep to strengthen the roots of the organization by developing strong 'Home Base' through BMS-INDIA.

VERTICAL 02

Section 02 is an entirely commercial wing of the organization. Here we are forming and funding our own various subsidiary companies, commercial organisations, sister concern companies & in-house commercial projects. All the business projects are skilfully developed with lot of study, surveys, analysis and detailed research with the help of expert people in that field to make the project perfect with the maximum possibility of success. Skilfully developed projects help us create a flourishing business opportunity with the highest turnover potential and the maximum possibility of profit. These business projects include happening projects with maximum profit possibilities and the highest turnover potential. All these projects will be introduced one after another gradually after the success of the previous one. MMBAIC 'Vertical-02' principle is based on the principle of 'Social Entrepreneurship,' where businesses are conducted for the financial development and upliftment of society, involving people who are connected to MMBAIC. The best example of this can be found in the cooperative sectors and TATA Industries.

MMBAIC is establishing 'Business Members Syndicate-India' (BMS-INDIA) at pan India level. This unique platform will prove to be strong 'Home Base' and a 'Self Support System' in the every 'Business Zone' to strongly promote various business project assigned to it, primarily operating within its designated business zones. 'Business Members Syndicate-India' (BMS-INDIA) works for profit maximization and effective conduct of the business as well as growth, development and expansion of the organization and its various business project assigned to it, primarily operating within its designated business zones.

VERTICAL 03

Here we are working as a 'Assured Mediation Platform for Commercial Funding' to help generate finance as well as working as a 'Professional Business Consultancy' that provides business support, guidance and consultation for growth, expansion, development and set up of various new start-ups, business firms and commercial organizations. We are trying to fill the gap and take the risk of playing the role of 'Assured Mediation Platform' by giving '100% assurance of desired return on investment' to the financiers or investors 'on the behalf of' the external business firms and their business projects. Of course, we are not any kind of banking or financial institution, funding agency or financial setup or financial system that provides investments, funds, finance, capital or loans for businesses, but we do create several opportunities for the same through various ways and sources.

WE DON'T ENTERTAIN 'KACHRA CROWD' WITH A "FREEMIUM MENTALITY.

We are cautioned against offering "Free Lunches," as it would attract a 'Kachra Crowd' with a "Freemium Mentality," which would not align with the purpose of the business club. [B] LIMITED SEATS

ONLY 03 DRIVES

of Memberships Registration

Will be conducted,

ONCE IN A LIFETIME

Hurry Up! Hurry Up!!

Please remember that, we are just forming BMS-INDIA with limited seats and developing every business zone. Then.... How many members are there in each business zone on BMS-India??- It is depends on how many are active members. Because as per Human Psychology, out of 100% work force, 10% people will be Super Active, 15% people will be High Active, 25% people will be Medium Active, 50% people will be Low Active. Of course we will always try to make limited RAMs, limited ABCs and limited EDs in every business zone. But we will also make sure that these numbers will be much sufficient to support our all business projects successfully to be run and conducted in the business zone. We will definitely make sure that building BMS-India is just a process of 'Fill in the blanks' for filling 'vacant places' and No Way 'an endless chain' of people. We will judge every business zone and instruct 'Business Zone President' to stop or continue connecting people with BMS-India. We will make sure that once zone is full with sufficient number of members no further membership will ever be granted to anyone at any cost and in any circumstances, because giving these many monetary – non- monetary benefits, even if we consider 'Monthly Members Wellbeing Allowance', to these many members is not practically possible, hence we have to keep the numbers limited. Shortlisting and Selection Process will be strict and precise to choose right and like-minded candidates. You get an opportunity to recommend maximum people in the drive to connect your trusted and beloved people to the organization, before all the seats are reserved because seats are very limited. Take this 'golden and life changing opportunity' of being a part of MMBAIC to your beloved and trusted people like a 'Precious Gift'. Once 3rd Drive of Membership Recommendation is over, we will judge every business zone and instruct 'Business Zone President' to stop or continue connecting people with BMS-India.

We will make sure that once zone is full with sufficient number of members no further membership will ever be granted to anyone at any cost and in any circumstances; hence we are appealing everyone to participate in the recommendation drive to complete the goal of formation of BMS-India and recommend your trusted and beloved people before all the seats are reserved because seats are very limited.

[C] WHY APPLICATION FEES?

Since seats are very limited on BMS-India, we want to connect very selective and premium mentality people with our organisation, hence we only will decide who will become a 'Regular Annual Member' of the Business Club or Who will not. We conduct the 'standard selection and appointment process' with several rounds of selection and telephonic interviews to select deserving candidates. Candidates can simply make an application with nominal fees to reserve their seat before it gets full. No one can directly become a 'Regular Annual Member' of the Business Club without our permission and approval, just by visiting website and rendering/submitting 'commitment fees'. That is what a reason, we have adopted a process of making prior application for seat reservation so that we can sort out and select only deserving candidates with premium mentality and progressive thought process. We charge a nominal application fee for seat reservations to cover the expenses incurred during the application selection process, including interviews and other related activities. We need to establish significant infrastructure, deploy a large team and manage staff for processing applications and conducting telephonic interviews. This involves a huge cost such as salaries, rent, electricity, and other operational charges. If we don't charge a nominal application fee, random individuals might submit applications unnecessarily just to try their luck. Offering free applications could result in thousands of submissions from across India daily, starting from the very first day, overwhelming our resources.

[D] WHY COMMITMENT FEES?

Are you really committed to your dream of becoming a successful businessman?

Generating revenue or making profit through 'Annual Membership Fees' by selling 'Annual Membership' is not our business module hence we offer 'Annual Membership Fees' at 'Free of Cost'. Though we don't charge any 'Annual Membership Fees' (like other standard business clubs, that operate in multi cities, charge Rs. 80,000/- to 2,50,000/- for the year) and offer our 'Regular Annual Membership' at FREE OF COST, we do make sure to charge a nominal amount of 'Commitment Fee' instead of offering 'Free Annual Membership'. This fee, though small and negligible, adds value because, as the saying goes, "If something is given for FREE, it holds NO VALUE." Hence, to add value to the membership, we charge small and negligible 'Token Amount' of 'Commitment Fees' against 'Free Regular Annual Membership' of the club.

We are cautioned against offering "Free Lunches," as it would attract a 'Kachra Crowd' with a "Freemium Mentality," which would not align with the purpose of the business club. Instead, the focus should be on providing this golden opportunity to deserving, genuine and ambitious individuals who are seriously looking to grow. We make sure that the fee should not be so low that it becomes insignificant or easily ignored. While nominal, it should carry enough weight to demonstrate the individual's commitment and seriousness about the decision to embark on their entrepreneurial journey.

Another purpose of implementing 'Commitment Fees' is also to ask him to conduct a 'Self-Evaluation' to determine whether he has thoroughly questioned his decision to be a part of the organisation, and whether he has recognised the absence of overall risk as a way to demonstrate the seriousness of his commitment. This will also help assess if he possesses 'Entrepreneurial Courage' and a 'Risk-Taking Attitude', like that of a businessman.

We strongly claim that earning revenue from annual membership fees or other fees is not our business model, but we think that charging a small, nominal 'Commitment Fee' is necessary to evaluate the seriousness of individuals who aspire to start businesses, become successful and achieve their dreams. This fee would surely serve as a measure of their commitment to those goals and ensure their dedication.

We appeal to show your commitment towards your dream. You become a 'Regular Annual Member', when you register your name for the 'Free Regular Annual Membership' of the club and you pay some small, nominal and negligible 'Token Amount' of 'Commitment Fees' against 'Free Regular Annual Membership' of the club.

You actually pay for being an authorized & an official part of MMBAIC family and get yourself registered with us on 'Business Members Syndicate-India' (BMS-INDIA); hence you do not actually pay for availing regular annual membership or to take admission for availing any unpaid courses, training programs, unpaid services, benefits, features, advantages, counselling, guidance and business consulting...etc. as those are already available at 'FREE OF COST' to all the registered members.

MMBAIC despite charging a nominal commitment fees, also ensures that you get an opportunity to earn 10 times more money in the next few months itself and the amount of commitment fees you paid against 'Free Regular Annual Membership' can easily be recovered immediately. Even if you consider just one monetary benefit i.e. 'Monthly Members Wellbeing Allowance' out of the 45+ monetary and Non-monetary Benefits, you will recover 100% of commitment fees you paid against your 'Free Regular Annual Membership'.

We will make sure that once zone is full with sufficient number of members no further membership will ever be granted to anyone at any cost and in any circumstances, even if someone is ready to pay 10 times the actual commitment fees amount.

So please, Hurry up! Hurry up!! Hurry up!!!
